The monthly status updates are based on information that we received from the contracted CPA firms.

Yap State Government and Component Unit

1. Yap State Government: FB had already received the final trial balance during the previous month, a correction to what we reported in the last status report. The engagement correspondence, risk assessment, audit programs, trial balance, grant documentation, proposed adjusting journal entries, and issuance of draft audit findings have been reported at 100% complete. The control, compliance and substantive testing are at 75% complete. All other items are pending. The final report and data collection form are targeted not later than April 2012. However, such may not be achieved because other Component Units' audits being done by the State Auditor will not be available for our Single Auditor until May 30, 2012, hence delaying the timely completion of Yap State audit.
2. Yap Visitor's Bureau: The risk assessment, grant documentation and audit program have been reported as 100% complete. FB has received the final trial balance, and they are 75% complete with the control, compliance and substantive testing. All other audit requirements are still pending. The final report is targeted for March 30, 2012.
3. Yap State Public Service Corporation (YSPSC): Done and the final audit report can be accessed at the FSM Public Auditor's website www.fsmopa.fm.
4. Diving Seagull, Inc: The risk assessment, audit program, grant documentation, and proposed adjustments of journal entries have been reported at 100% complete.
