The Board of Directors
Federated States of Micronesia
Telecommunications Corporation

Dear Members of the Board:

We have performed an audit of the financial statements of the Federated States of Micronesia (FSM) Telecommunications Corporation (the Corporation) as of and for the year ended September 30, 2013, in accordance with auditing standards generally accepted in the United States of America (“generally accepted auditing standards”) and have issued our report thereon dated December 27, 2013.

We have prepared the following comments to assist you in fulfilling your obligation to oversee the financial reporting and disclosure process for which management of the Corporation is responsible.

OUR RESPONSIBILITY UNDER GENERALLY ACCEPTED AUDITING STANDARDS AND GENERALLY ACCEPTED GOVERNMENT AUDITING STANDARDS

Our responsibility under generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service (RUS) Borrowers*, have been described in our engagement letter dated September 11, 2013, a copy of which has been provided to you. As described in that letter, the objective of a financial statement audit conducted in accordance with the aforementioned standards is:

- To express an opinion on the fairness of the Corporation’s financial statements and to disclaim an opinion on the required supplementary information for the year ended September 30, 2013 in conformity with accounting principles generally accepted in the United States of America (“generally accepted accounting principles”), in all material respects;
- To express an opinion on whether the supplementary information that accompanies the basic financial statements is presented fairly, in all material respects, in relation to the basic financial statements taken as a whole;
- To report on the Corporation’s internal control over financial reporting and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters for the year ended September 30, 2013 based on an audit of financial statements performed in accordance with the standards applicable to financial audits contained in *Government Auditing Standards*, and 7 CFR Part 1773; and
- To issue an independent auditors’ management letter.

Our responsibilities under generally accepted auditing standards include forming and expressing an opinion about whether the financial statements that have been prepared with the oversight of management and the Board are presented fairly, in all material respects, in conformity with generally accepted accounting principles. The audit of the financial statements does not relieve management or the Board of their responsibilities.

We considered the Corporation's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses.

ACCOUNTING ESTIMATES

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and on assumptions about future events. Significant accounting estimates reflected in the Corporation's 2013 financial statements include management's estimate of the allowance for uncollectible accounts, which is determined based upon past collection experience and aging of the accounts, and management's estimate of depreciation expense, which is based on estimated useful lives of the respective capital assets. During the year ended September 30, 2013, we are not aware of any significant changes in accounting estimates or in management's judgments relating to such estimates.

AUDIT ADJUSTMENTS AND UNCORRECTED MISSTATEMENTS

As the result of our audit work, we identified matters that resulted in audit adjustments that we believe, either individually or in the aggregate, would have a significant effect on the Corporation's financial reporting process. Such proposed adjustments, listed in Attachment I, have been recorded in the accounting records and are reflected in the 2013 financial statements. Those proposed adjustments that were not recorded by management are also included in the appendix described in the next paragraph.

Our audit of the financial statements was designed to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. We have attached to this letter, as Appendix A to Attachment II, a summary of uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented that were determined by management to be immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

SIGNIFICANT ACCOUNTING POLICIES

The Corporation's significant accounting policies are set forth in note 1 to the Corporation's 2013 financial statements. During the year ended September 30, 2013, there were no significant changes in previously adopted accounting policies or their application, except for the following pronouncements adopted by the Corporation:

- GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, which addressed how to account for and report service concession arrangements (SCAs), a type of public-private or public-public partnership that state and local governments are increasingly entering into. The implementation of this statement did not have a material effect on the financial statements.

- GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, which improved financial reporting for governmental entities by amending the requirements of Statements No. 14, *The Financial Reporting Entity*, and No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, to better meet user needs and address reporting entity issues that have come to light since those Statements were issued in 1991 and 1999, respectively. The implementation of this statement did not have a material effect on the financial statements.
- GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which enhanced the usefulness of its Codification by incorporating guidance that previously could only be found in certain Financial Accounting Standards Board (FASB) and American Institute of Certified Public Accountants (AICPA) pronouncements issued on or before November 30, 1989, which does not conflict or contradict GASB pronouncements. GASB Statement no. 62 superseded GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*. The implementation of this statement did not have a material effect on the financial statements.
- GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which established guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which clarifies the appropriate reporting of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. These Statements amend the net asset reporting requirements in Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. With the implementation of GASB Statement No. 63 and Statement No. 65, the Statement of Net Assets was renamed the Statement of Net Position. In addition, the Statement of Net Position includes two new classifications separate from assets and liabilities. Amounts reported as deferred outflows of resources are reported in a separate section following assets. Likewise, amounts reported as deferred inflows of resources are reported in a separate section following liabilities.

In April 2012, GASB issued Statement No. 66, *Technical Corrections - 2012*, which enhances the usefulness of financial reports by resolving conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting. The provisions of this statement are effective for periods beginning after December 15, 2012. Management has not yet determined the effect of implementation of this statement on the financial statements of the Corporation.

In June 2012, GASB issued Statement No. 67, *Financial Reporting for Pension Plans*, which revises existing guidance for the financial reports of most pension plans, and Statement No. 68, *Accounting and Financial Reporting for Pensions*, which revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. The provisions in Statement 67 are effective for financial statements for periods beginning after June 15, 2013. The provisions in Statement 68 are effective for fiscal years beginning after June 15, 2014. Management has not yet determined the effect of implementation of these statements on the financial statements of the Corporation.

In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*, which improves accounting and financial reporting for state and local governments' combinations and disposals of government operations. Government combinations include mergers, acquisitions, and transfers of operations. A disposal of government operations can occur through a transfer to another government or a sale. The provisions in Statement 69 are effective for fiscal years beginning after December 15, 2013. Management has not yet determined the effect of implementation of these statements on the financial statements of the Corporation.

In April 2013, GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, which requires a state or local government guarantor that offers a nonexchange financial guarantee to another organization or government to recognize a liability on its financial statements when it is more likely than not that the guarantor will be required to make a payment to the obligation holders under the agreement. The provisions in Statement 69 are effective for fiscal years beginning after June 15, 2013. Management has not yet determined the effect of implementation of these statements on the financial statements of the Corporation.

OTHER INFORMATION IN THE ANNUAL REPORTS TO SHAREHOLDERS

When audited financial statements are included in documents containing other information such as the Corporation's 2013 Annual Report, we will read such other information and consider whether it, or the manner of its presentation, is materially inconsistent with the information, or the manner of its presentation, in the financial statements audited by us. We will read the other information in the Corporation's 2013 Annual Report and will inquire as to the methods of measurement and presentation of such information. If we note a material inconsistency or if we obtain any knowledge of a material misstatement of fact in the other information, we will discuss this matter with management and, if appropriate, with the Board.

The audited financial statements for the year ended September 30, 2013 were not included in documents containing other information such as the Corporation's Annual Report to the date of this letter.

DISAGREEMENTS WITH MANAGEMENT

We have not had any disagreements with management related to matters that are material to the Corporation's 2013 financial statements.

CONSULTATION WITH OTHER ACCOUNTANTS

We are not aware of any consultations that management may have had with other accountants about auditing and accounting matters during 2013.

MANAGEMENT'S REPRESENTATIONS

We have made specific inquiries of the Corporation's management about the representations embodied in the financial statements. Additionally, we have requested that management provide to us the written representations the Corporation is required to provide to its independent auditors under generally accepted auditing standards. We have attached to this letter, as Attachment II, a copy of the representation letter we obtained from management.

MAJOR ISSUES DISCUSSED WITH MANAGEMENT PRIOR TO OUR RETENTION

Throughout the year, routine discussions regarding the application of accounting principles or auditing standards were held with management in connection with transactions that have occurred, transactions that are contemplated, or reassessment of current circumstances. In our judgment, such discussions were not held in connection with our retention as auditors.

SIGNIFICANT DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

In our judgment, we received the full cooperation of the Corporation's management and staff and had unrestricted access to the Corporation's senior management in the performance of our audit.

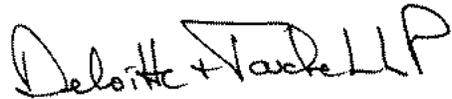

CONTROL-RELATED MATTERS

We have issued a separate report to you, also dated December 27, 2013, wherein matters involving the Corporation's internal control over financial reporting that were considered to be significant deficiencies under standards established by the American Institute of Certified Public Accountants, and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters were reported. We have also issued a separate independent auditors' management letter report to you, also dated December 27, 2013, on specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, and other additional matters. We have also communicated to management, in a separate letter also dated December 27, 2013, other matters that we identified during our audit.

This report is intended solely for the information and use of the Board of Directors, management, others within the organization, and the Office of the FSM National Public Auditor and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank the staff and management of the Corporation for their cooperation and assistance during the course of this engagement.

Very truly yours,
