

ONPA COMPLETED ITS FOURTH OUTREACH ACTIVITY FOR 2022

Theme: *"Improving Government Transparency & Accountability Together!"*

On December 11, 2022, the Outreach Committee continued to carry out its fourth outreach activity for the year at Kahmar community catholic church in Nett Municipality; recording the biggest number of attendance in a single outreach activity.

The Outreach Program is an activity of the ONPA to create awareness to its stakeholders and deliver key messages of accountability, transparency and good governance to the communities.

Similar to the previous events, the recent outreach consisted of a slideshow presentation on the duties & responsibilities and outputs of the ONPA, including the two latest reports (CFSM Road Project and the Ban of Styrofoam & Plastics). Based on the committee's evaluation, there were both positive and impactful feedbacks from the community members generally on the inspection findings. The committee appreciated and gladly embraced the feedbacks for improvement.

To enhance the engagement visit, the committee members also attended the church service before proceeding with their presentation. The ONPA expresses its sincere appreciation to the members of the community for a very warm welcome and for their effective participation

Throughout 2022, the outreach committee have conducted four outreach activities in Pohnpei state, and the team will continue to carry out its outreach in the beginning of year 2023 in Madolenihmw Municipality. Our goal as an organization is to increase awareness for the stakeholders and conduct more outreach activities in the other states of the FSM in the future.
