

ONPA Team Building Activity 2025

On Friday, October 3rd, the Office of the National Public Auditor (ONPA) spent the day not only competing but, more importantly, collaborating and strengthening team bonds. The team building event took place at Nihco Marine Park, where the staff came together to share their accomplishments, identify strengths and areas for improvements and reaffirm our planned activities and target outputs already established in the Operational Plan for the upcoming fiscal year.

The day began with a welcome prayer from Chief Investigator Kelly Samuel followed by presentations from the divisional managers on ONPA's 2026 operational plan, Code of Ethics and Code of Conduct Manual, Human Resources Manual, and the roles and responsibilities of the Quality Assurance Officer (QAO).

In the afternoon, ONPA split into teams to take part in fun and competitive games prepared by the planning committee. The activities offered great opportunity for staff to win great prizes while fostering teamwork, collaboration, and camaraderie.

The day ended with a reflection of ONPA's expectations for FY26, the announcement, and recognition of the champions of ONPA's Weight Loss Challenge.

Overall, ONPA's 2025 Team Building Activity was a success, leaving everyone with great memories, renewed motivation, and smiles on their face.

Congratulations ONPA on completing another successful year!
