

Hiring of a new Audit Supervisor

The Office of the National Public Auditor is happy to announce the rehiring of Mr. Manuel L. San Jose Jr., better known as “Manny” as Audit Supervisor. Manny was with the office for three years, from May 2007 to October 2010. Among his many responsibilities as the audit supervisor, Manny played an important role in guiding auditors in constructing audit plans and programs, and ensuring that execution of the audits are in line with its audit plans and existing auditing standards.

The office would like to acknowledge that Manny has returned to the office with two more certifications to add to his never-ending list of accomplishments. In 2011, Manny obtained his professional license as a Certified Internal Auditor (CIA) *U.S version*. And early on this year, 2012, he received his license as a Certified Information System Auditor (CISA) *U.S version*. The office is hopeful as it looks forward to a productive year with Manny.

Welcome back Manny!
